STATE OF CALIFORNIA
PRISON HEALTH CARE SERVICES

Memorandum

Date : June 17, 2009

To : Institutional Health Care Managers
Associate Wardens Health Care Operations

From: Dwight Winslow, Chief Physician Executive
Health Care Services

Tom Felker, Director
Field Operations
Corrections Services

Subject : **INSTITUTIONAL MEDICAL SERVICES GUIDE**

To consistently identify medical services available at each institution, the California Prison Health Care Services (CPHCS) conducted a survey of each institution and documented the findings on the attached Institutional Medical Services Guide (IMSG). To ensure complete accuracy, it is imperative that all Health Care Managers and/or Associate Wardens of Health Care Operations review the IMSG document and forward any changes, modifications, or updates to the contact emails listed below. It is also requested that in the area titled *Correctional Facility*, an appropriate contact number/e-mail address be provided.

The accuracy of the document is critical as it will be used in various projects as a control document for all medical system program areas and will be posted as a resource document on the CPHCS website beginning July 15, 2009. It is the intent that the IMSG be updated regularly as changes are made at your institutions and, at a minimum, reviewed every six months for accuracy.

At this time, any suggested changes to the document, updates or questions are to be addressed to John.Rogel@CDCR.CA.gov or Jason.Anderson@CDCR.CA.gov .
