RE: Healthcare Facility Improvement Program – California State Prisons  
Avenal State Prison Master Plan Addendum

Dear Mr. Kelso,

In response to your and John Hagar’s request to look at multiple items at Avenal State Prison (ASP), the enclosed June 12, 2008 Addendum to the Avenal facility master plan has been developed and approved by the Institution, CPR, and CDCR representatives. This addendum addresses and responds to multiple changes in the overall objectives and scope of the program since the completion of the ASP Master Plan of August 28, 2007.

The report is being provided for your and John Hagar’s review and acceptance to augment the ASP project budget and proceed with implementation of the revised and additional projects. The facility management team may be available, upon your request, to formally present the addendum and answer any questions you may have on this report to allow it to be accepted and begin the next steps toward implementation.

The following table references the projects modified by this addendum and provides the approval mechanism for acceptance of each individual item and authorization into implementation.

Project #	Description	Approved	Not Approved
ASP-01a	5 <sup>th</sup> Wheel Trailer Clinic <b>Canopy</b>		
ASP-02	<b>Renovation of visiting and Access To Care temp. trailer</b>		
ASP-04	<b>Expand</b> Modular Health Admin. Bldg
