PROJECT DESCRIPTION:

The Project will involve construction of a new medical building, as well as renovation of existing buildings for facility program support services, dining and receiving, family visiting, academic and vocational education, miscellaneous support, and a gymnasium at the former Northern California Women's Facility. Existing structures contain 400 cells. Total planned inmate capacity for the Northern California Reentry Facility is 500 beds. To provide the additional capacity CDCR proposes to provide 100 double-bunked units; the balance of the housing facilities would remain single-bed units.

This is to advise that CDCR approved the above-described project on December ²⁹, 2010, and has made the following determinations regarding the project, pursuant to CEQA Guidelines Section 15164:

1. The subject project will have significant effects on the environment.

2. An EIR was prepared and certified for the Northern California Reentry Facility (SCH No. 2008022133) pursuant to the provisions of the California Environmental Quality Act.
3. Mitigation measures were made a condition of the approval of the subject project.
4. A Mitigation Monitoring and Reporting Program was adopted for the subject project.
5. A Statement of Overriding Consideration was adopted for the subject project.
6. Findings were made pursuant to the provisions of the California Environmental Quality Act for the subject project.

This is also to advise that the California Prison Healthcare Receiver concurs in the Secretary's approval of the operation of those portions of the Northern California Reentry Facility for which the Receiver has oversight authority on December 29, 2010, and has made the following determinations regarding the project, pursuant to CEQA Guidelines Section 15164:

1. The subject project will have significant effects on the environment.
2. An EIR was prepared and certified for the Northern California Reentry Facility (SCH No. 2008022133) pursuant to the provisions of the California Environmental Quality Act.
3. Mitigation measures were made a condition of the approval of the subject project.
4. A Mitigation Monitoring and Reporting Program was adopted for the subject project.
5. A Statement of Overriding Consideration was adopted for the subject project.
6. Findings were made pursuant to the provisions of the California Environmental Quality Act for the subject project.

This is to certify that the final EIR with comments and responses and the record of project approval are available to the general public at: 9838 Old Placerville Road, Suite B, Sacramento, California.

Date Received for Filing:
