9838 Old Placerville Road, Suite B
Sacramento, CA 95827
(916) 255-1141

PROJECT DESCRIPTION:

The California Prison Health Care Receivership has prepared and adopted an environmental impact report (EIR) for the proposed construction of a new centralized 1,734-bed health care facility that would consist of housing clusters, diagnostic and treatment centers, an armory, warehouse facilities, a central plant, a gatehouse, central kitchen, guard towers, employee and visitor parking areas, and other associated on- and off-site infrastructure and related appurtenances. The project includes provisions for security lighting, a lethal electrified perimeter fence to surround the secure area of the facility, and associated sallyports for pedestrian and vehicular access. The proposed health care facility would employ up to approximately 3,000 staff and have 75-100 visitors per day. The new facility would be built on the grounds of an existing former California Department of Corrections and Rehabilitation (CDCR) youth correctional facility. This facility would be demolished to provide an area for the new health care facility.

This is to advise that the California Prison Health Care Receivership (CPR), as lead agency, has approved the above-described project on October 12, 2009, and has made the following determinations regarding the project, pursuant to CEQA Guidelines Section 15164:

1. The subject project will have significant effects on the environment.
2. An EIR was prepared and certified for the California Health Care Facility Stockton (SCH No. 2008062056) pursuant to the provisions of the California Environmental Quality Act.
3. Mitigation measures were made a condition of the approval of the subject project.
4. A Mitigation Monitoring Plan was adopted for the subject project.
5. A Statement of Overriding Consideration was adopted for the subject project.
6. Findings were made pursuant to the provisions of the California Environmental Quality Act for the subject project.
7. The California Department of Corrections and Rehabilitation has concurred with the approval of the certification of the EIR, the approval of the project, and the adoption of findings and the Statement of Overriding Consideration.

This is to certify that the final EIR with comments and responses, a technical memorandum, and the record of project approval are available to the General Public at: 501 J Street, Suite 100, Sacramento, California and at 9838 Old Placerville Road, Suite B, Sacramento, California.

Date Received for Filing:

**CLARK KELSO, Receiver,
Prison Health Care Receivership, Exercising
Authority of Secretary of Corrections for
Purposes of Prison Health Care**

**MATTHEW CATE, Secretary
California Department of Corrections and
Rehabilitation**
