The Office of the Inspector General ("OIG") audits encompass 20 components of medical delivery and comprise up to 152 questions. The questions are weighted based on their importance to the delivery of medical care to inmates. The percentages reported above represent the percentage of total weighted points possible for each of the 20 components. The OIG does not intend to determine the percentage score needed by an institution to meet constitutional standards.

Moderate Adherence to Policies & Procedures	75% - 85%
High Adherence to Policies & Procedures	> 85%

The Office of the Inspector General ("OIG") audits encompass 20 components of medical delivery and comprise up to 152 questions. The questions are weighted based on their importance to the delivery of medical care to inmates. The percentages reported above represent the percentage of total weighted points possible for each of the 20 components. The OIG does not intend to determine the percentage score needed by an institution to meet constitutional standards.

The Office of the Inspector General ("OIG") audits encompass 20 components of medical delivery and comprise up to 162 questions. The questions are weighted based on their importance to the delivery of medical care to inmates. The percentages reported above represent the percentage of total weighted points possible for each of the 20 components. The OIG does not intend to determine the percentage score needed by an institution to meet constitutional standards.
